Subject: Genx and leave for staff

Hello Karen and Catherine

Stephanie Sarraino June 26th to July 4th back on July 5th
Laurence Libelo June 29th to July 7th back on July 10th
David Tobias June 27th to July 6th back on July 7th

I will get Dave L to back up for us on this, he should be here while Laurence and I are gone.

I don't know if Majd will have a revised engineering before the July 4th weekend. I guess it depends on response time to his questions. Dave L will help whatever exposure assessor receives the case from him. Hopefully it will be run similar to a "normal" engineering report. NCEM will combine the releases by our typical process as long as they are from a site.

Stephanie has a good start on the exposure calculation based on measured data, we can try to finish that up before I leave.

David A. Tobias
